Summary

MERN stack web developer with proficiency in Frontend development using React

Experience

Web Development Intern

Viga Entertainment Technology

Jul 2020 - Present (3 months +)

React Developer

Development of a single sign-in interface for all of the movie studio's applications using ReactJs to interact with a Django REST API server at the back-end. Facilitates user authentication and registry, and the ability to subscribe to different services with a focus on good UI/UX design.

Web Development Intern

Easyrath

Jul 2020 - Aug 2020 (2 months)

Development of a web application as an inventory management tool for a B2B client. Worked with HTML, CSS, Javascript, Bootstrap for front-end design and SQL for back-end. Used ElectronJs to package the web app as an .exe file for offline use at client side.

Driverless Subsystem

Formula Manipal

Oct 2018 - Feb 2020 (1 year 5 months)

Spearheaded a team with an objective to convert combustion and electric vehicles into autonomous vehicles. Worked with Internet of Things, Robotics, Image Processing using OpenCV, and Robot Operating System. The team participated in Formula Bharat 2020 with an electric team, being the finalists for Ather Energy Software awards.

Education

Manipal Institute of Technology

Bachelor of Technology - BTech, Information Technology

2017 - 2021

Grade - 7.41 (7th Semester)

Delhi Public School Indrapuram

2011 - 2016

12th - 87%

10th - 10 CGPA
